

your Honor,

Much respect to your courtroom! This is not what it LOOKS like I will clear my name!
Writing the Judge in a matter such as this usually goes against Attorney's recommendation
however I have nothing to ~~hide~~!

My Evidence Lead to the findings on Michael Flynn 3rd Party and there are
quite a few more Michael Flynn's in the government. These are Red Squad Informants
being misappropriated for unlawful contract work Selling Government Data
Being mined by the Infraguard Alliance, not all Infraguard Informants but
All substantial Evidence Links back through them. Their causing the breaches
like the NSA's Breach

I've Been working on this controversial and somewhat Deceptive investigation
for a while and turning Evidence over to the military and my phone, post office and internet
records will prove that. Military Agencies like, US Army CID, NCIS, USMC SIB handed
By Colonial Parish, Military Police Hawaii Casey W Connery. Between 3-7-17 and 3-14-17
I dropped a series of controversial tips of involving treason, Evidence supporting
Michael Flynn activity off to Police depts For the FBI. AA 3-14-17 This warrant
was issued to shut me up. To get me off the streets and to prevent My
Intel from surfacing. I have substantial Evidence supporting Milwaukee FBI
Agents Stephen L Casey, Shields and GB Jones using assets in treasonous
offences, and other offences.

names of Milwaukee FBI Assets / Infraguard Informants

Alex James Brown: Infiltrated 469th military base as a mechanic and
his last Deployment as far as I know was March of 08
Officer Suzie Gonzolous Madison WI Police Department and Officer Barrett
Officer Peaceman Richland Center Police Dept. Richland Center WI.
Paula My case worked on the sex offender Registry

On more than 1 occasion I have ^{been} Tailed and Released without charges
Based on False accusations Being made against me by the Infraguard people

1. Falsifying my address with the Dept of Corrections is what the sex offender Registry accused me of, after being beat up and hauled off to jail for it. I was released without charges.

2. Check Forgery: I was hauled off to jail and released without charges again.

3. Domestic Disorderly Conduct: after being locked up for 3 months I was released again without ever seeing a courtroom.

This is unlawful behavior being carried out against me by the infraguard informants in service to the Milwaukee FBI because of evidence I hold from an 8 year investigation.

My plea will be not guilty all the way through my name will clear! I told the K.S. FBI Agents that I could prove my freedom from guilt without going to court on these accusations. My communication records will clear my name! Notice the Army National Guards name is in the paper work because their not pressing charges as far as I know. My actions are and have all been supported by law code & statute. For code & statute, I can prove that.

My sex offender Registry paper work is being falsified and changed by Paula the case worker on the matter, that's not hard to prove.

There's nothing legitimate about the Milwaukee FBI's charges and unlawfully wiretapping will have played a significant roll in established evidence of audio nature!

I would like to file motions of discovery to prove all this to the court. 1st A motion of discovery; prosecution reveals all evidence and sources of evidence, including but not limited to informants, snitches, spies, Red Squad members, infraguard members or otherwise.

And motion of discovery; prosecution reveals my FBI file completely and all they have on me.

③ 3rd motion of Discovery: How many times I have been accused and jailed under false pretenses Attorney Reveals to court my criminal record and shows arrests which lead to ~~no~~ charges.

4th motion of Discovery: Prosecution Reveals The Identities of Informants linked to Each arrest including this one.

a motion of Dismissal of all Charges based on conflict of interest and or lack of evidence once you see it for yourself.

Please save a copy of this letter for me, my Attorney and send a copy to Special agent Corey Baumgardner, whose name is on the Warrant.

I hold a billion dollars in intel I will put that under oath as can be seen by collection of the TIPS dropped off by me signed with my name and dropped off to Kansas Police Dept. I hold alot of intel.

Oath and Affirmation Requests in Exchange For Intel

Requests \$70,000 Just compensation

Expungement of juvenile and adult criminal background

Plus my gun rights back and a conceal to carry permit

Oath to abolish Treason and uphold the Constitution I will turn it all over.

If the FBI withholds these charges orders my release and allows me to clear my name without further jail, detainment or court I will do so by letting them get access to anything they need from my Birth till Present, and provide code & statutes in written form that backs anything ^{that} have questions about.

I gave the Kansas FBI A full recorded interview without a lawyer Present clearly I knew I haven't Broken the law.

If they will Exchange oath and Affirmation for intel I will forget all of this and I won't hold the FBI Legally accountable for all the UNLAWFUL actions they have taken

④ against me When I broke five broken up has
Case: 3:17-cr-00035-jdp Document #: 7 Filed: 03/28/17 Page 4 of 6
